Problem Statement

- X wanted to watch a movie that has recently been released they have been waiting for but X doesn't want to manually call and check if movie is available in theaters
- Y wants to add his multiplex and add movies to it but he doesn't know where to market this information.

Objective

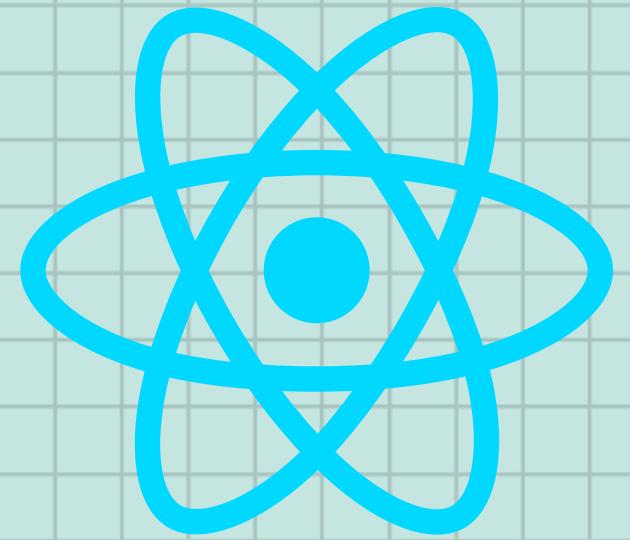

1

To provide a simple and fun user experience to watch your favorite movies in your select watching experience.

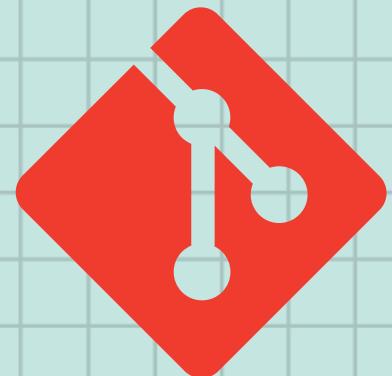

2

To provide an easy-to-use place for multiplex owners to display their information to customer.

Multiplex Owner Dashboard

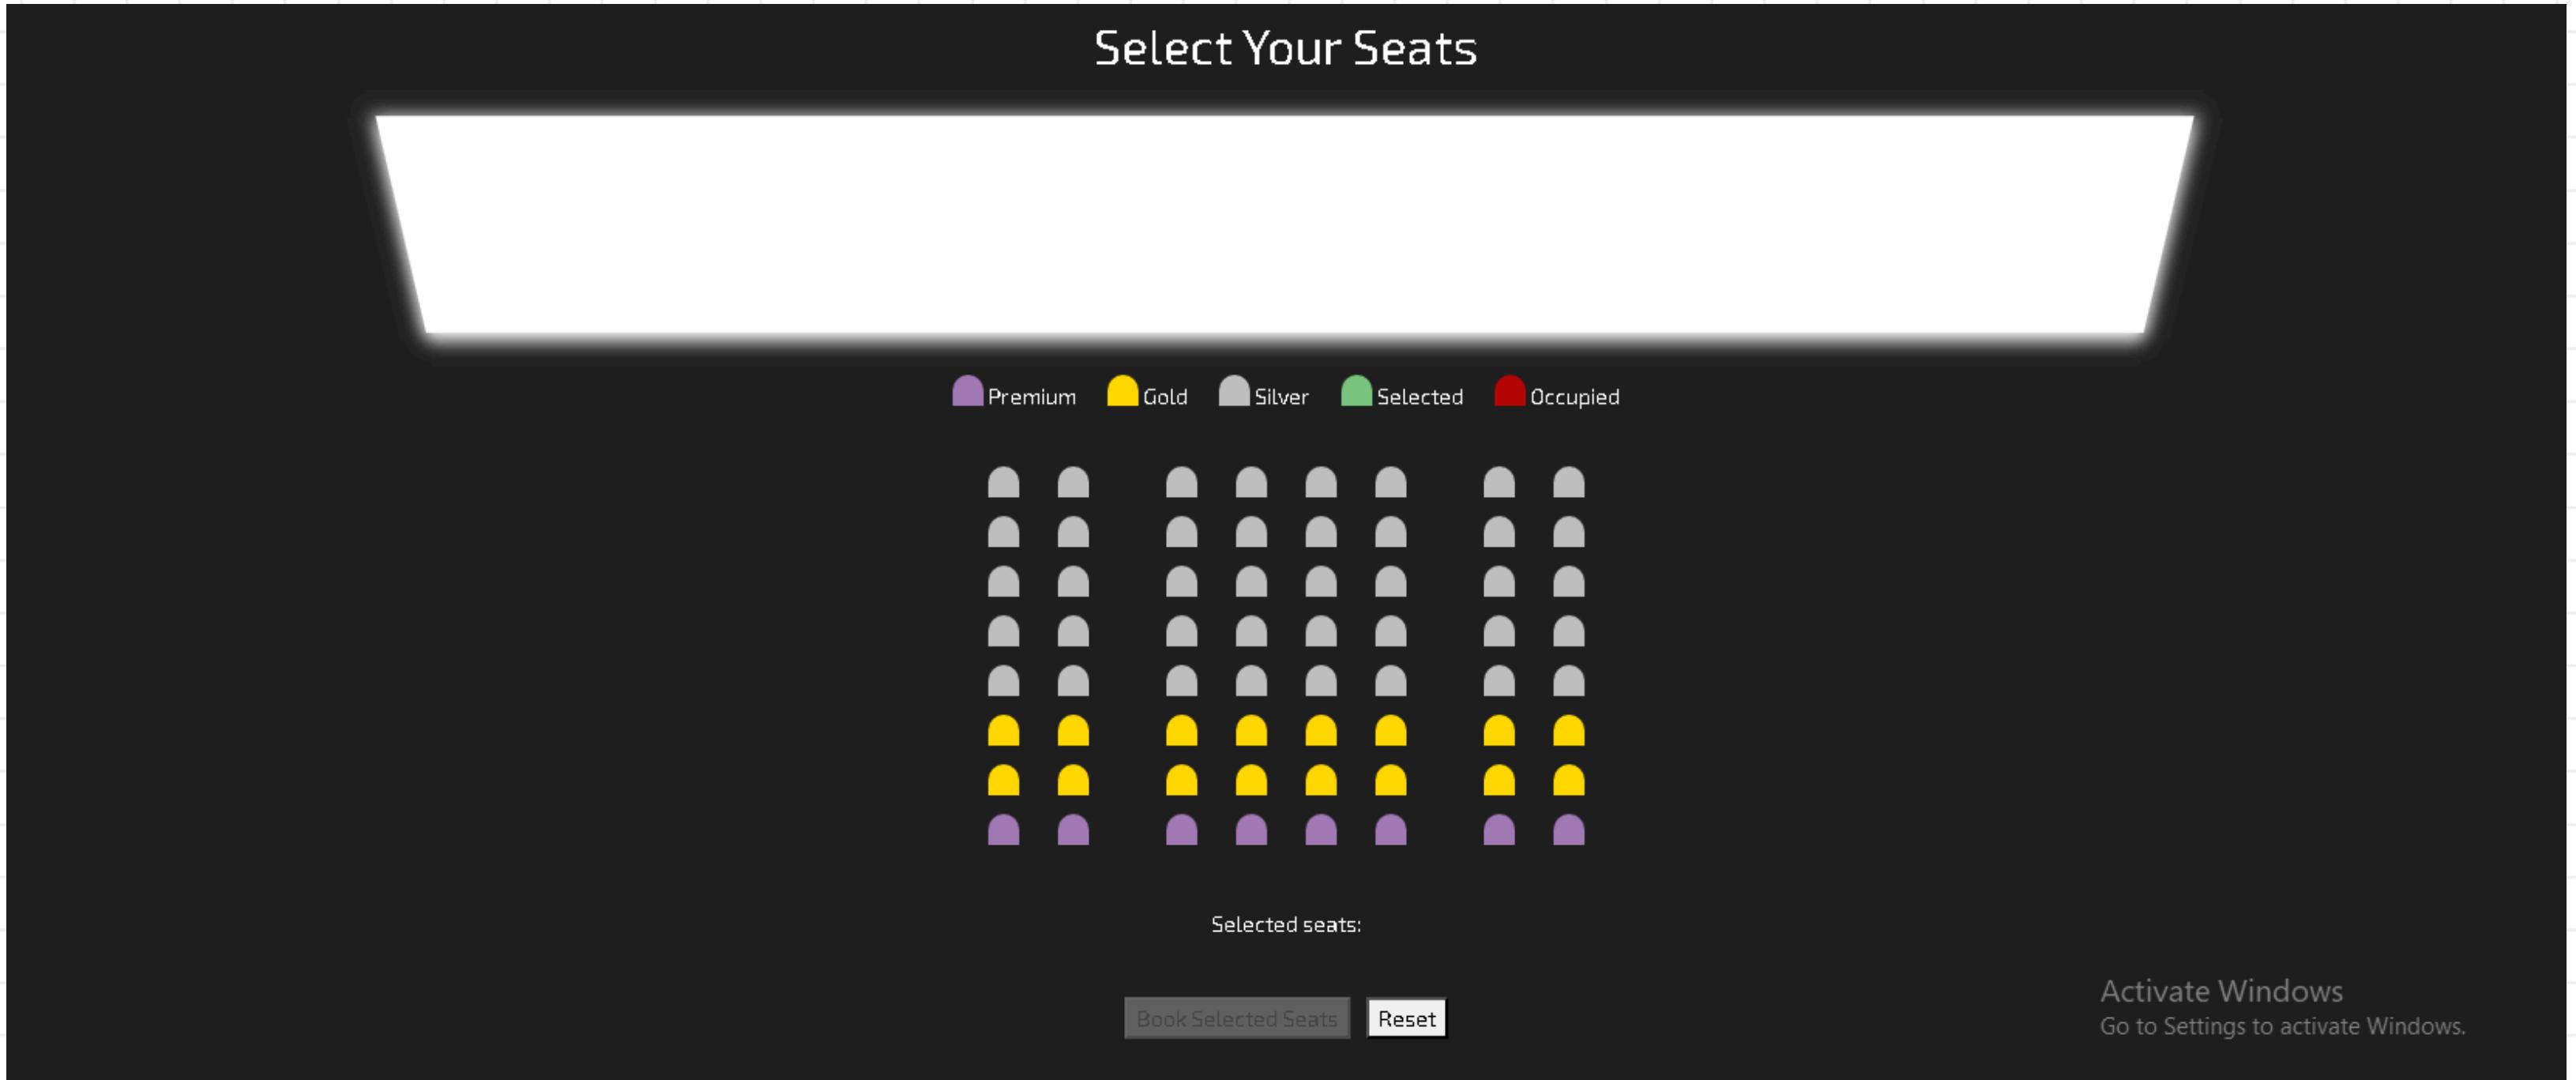

A dark-themed modal dialog titled 'Add New Movie' is displayed. It contains fields for 'Choose Multiplex' (set to 'INOX, Noida'), 'Movie Name' (empty), 'Movie Duration' (empty), 'Movie Rating' (empty), 'Movie Genre' (empty), 'Movie Description' (empty), and 'Movie Poster URL' (empty). At the bottom are 'Cancel' and 'Add Movie' buttons. The background of the main window is dark red.

Conclusion

- This movie booking app helps the user(Ticket Booker) to book the latest movies with ease.
- It helps the user(Multiplex Owner) for CRUD operations for Multiplex, Movies, Screens.
